**IMPACT Silver Resumes Ownership of the
Veta Grande Silver Project in Zacatecas, Mexico**

IMPACT Silver Corp. (“IMPACT” or the “Company”) announces today that it has resumed control of the Veta Grande Silver Project assets, which consist of the 200-tonne-per-day Santa Gabriela processing plant and mineral concessions in the Zacatecas Silver District in central Mexico. Defiance has advised IMPACT that it would be returning the Zacatecas assets, which were optioned to Defiance in 2011.

IMPACT is also pleased to announce the launch of its newly redesigned website, available at www.impactsilver.com. The new corporate website offers clear and concise access to information pertaining to IMPACT’s operations, as well as a comprehensive investor section, providing an informative and visually appealing platform for IMPACT shareholders and potential investors to receive the most current company information.

IMPACT’s long term company vision is to build a multimillion ounce precious metals producing company with several production centres fed by multiple mines. IMPACT currently operates two silver production centres within its 100%-owned 623 km² land package in south-central Mexico: the Guadalupe Production Centre and the new Capire Production Centre. At Guadalupe, three underground silver mines feed the central 500-tpd processing plant located within the historic Royal Mines of Zacualpan Silver District. At Capire, the Company’s first open pit silver mine commenced initial pilot plant production at 200-tpd in early 2013 and commercial production during the fourth quarter. Additional information can be found on the Company website at www.IMPACTSilver.com.
